

VULNERABILITY ASSESSMENT REPORT USING NESSUS ESSENTIALS

Name: Kailash

Task: Task 2 – Vulnerability Assessment

Tool Used: Nessus Essentials

Date: 09 June 2026

1. OBJECTIVE

The objective of this task is to perform a vulnerability assessment on a target system using Nessus Essentials and identify potential security weaknesses.

2. TOOL USED

- Nessus Essentials
 - Web Browser (Google Chrome)
 - Windows 11 Operating System
-

3. TARGET SYSTEM

Target IP Address: 192.168.56.1

4. PROCEDURE

5. Downloaded and installed Nessus Essentials.
 6. Registered and activated Nessus using an activation code.
 7. Waited for plugin initialization and updates to complete.
 8. Logged into the Nessus dashboard.
 9. Created a new Basic Network Scan.
 10. Entered the target IP address.
 11. Saved and launched the scan.
 12. Waited for the scan to complete.
 13. Reviewed and analyzed the scan results.
-

5. RESULTS

Scan Status: Completed Successfully

Severity Summary:

Critical Vulnerabilities : 0

High Vulnerabilities : 0

Medium Vulnerabilities : 0

Low Vulnerabilities : 0

Informational Findings : 100

The scan did not identify any critical, high, medium, or low severity vulnerabilities. The findings were informational in nature and included host and scan-related information.

6. OBSERVATIONS

- Nessus successfully scanned the target system.
 - No significant security vulnerabilities were detected.
 - Informational findings provided details regarding the target host and scan configuration.
 - The target system appeared to be in a secure state based on the scan results.
-

7. CONCLUSION

The vulnerability assessment was successfully completed using Nessus Essentials. The target system was scanned and analyzed for security weaknesses. No critical, high, medium, or low severity vulnerabilities were identified. The scan generated informational

findings only, indicating that no major security issues were detected during the assessment.

8. OUTCOME

Successfully performed vulnerability assessment using Nessus Essentials and analyzed the scan results.
