Plugin Details

✎

Description

The remote service understands the CIFS (Common Internet File System) or Server Message Block (SMB) protocol, used to provide shared access to files, printers, etc between nodes on a network.

Output

An SMB server is running on this port.

To see debug logs, please visit individual host

Port ▾ Hosts

139 / tcp / smb 192.168.56.1 

A CIFS server is running on this port.

To see debug logs, please visit individual host

Port ▾ Hosts

445 / tcp / cifs 192.168.56.1
