

INTERNSHIP TASK 1 REPORT

1. Title

Internship Task 1 – Project Submission

2. Introduction

This report describes the completion of Internship Task 1. The objective of this task was to implement the given requirements and demonstrate basic understanding of development tools and coding concepts.

3. Objective

- To complete the assigned Task 1 successfully
- To understand the use of GitHub for version control
- To practice coding and project submission workflow

4. Tools & Technologies Used

- HTML / CSS / JavaScript (edit if needed)
- Git & GitHub
- VS Code / Any Code Editor

5. Project Description

The project involves creating a simple application/webpage based on the given task

instructions. All required features have been implemented and tested successfully.

6. Steps Followed

1. Created project files
2. Wrote required code
3. Tested the output locally
4. Initialized Git repository
5. Pushed code to GitHub repository
6. Verified final submission link

7. Output

The project runs successfully without errors and meets all the requirements of Task 1.

8. Conclusion

Task 1 has been completed successfully. This task helped improve understanding of coding, project structure, and GitHub workflow.
